Oh, man... Yeah...
I can't think of anything to write in the comments section anymore... Which is why, right this very moment, I'm going to just scribble down the first thought that comes to me while I sit here at my desk staring outside...
"These clouds are pretty gray!!"

—Masashi Kishimoto, 2013

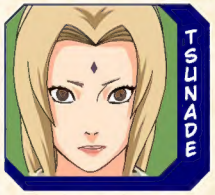

Author/artist Masashi Kishimoto was born in 1974 in rural Okayama Prefecture, Japan. After spending time in art college, he won the Hop Step Award for new manga artists with his manga **Karakuri** (Mechanism). Kishimoto decided to base his next story on traditional Japanese culture. His first version of **Naruto**, drawn in 1997, was a one-shot story about fox spirits; his final version, which debuted in **Weekly Shonen Jump** in 1999, quickly became the most popular ninja manga in Japan.

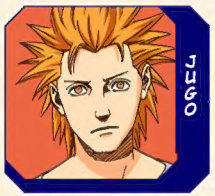

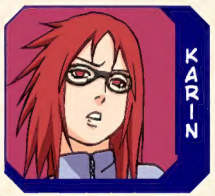

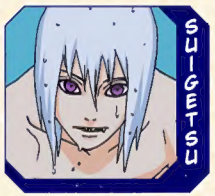

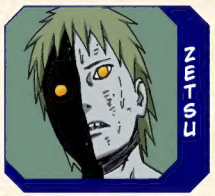

THE STORY SO FAR...

Naruto, the biggest troublemaker at the Ninja Academy in the Village of Konohagakure, finally becomes a ninja along with his classmates Sasuke and Sakura. They grow and mature through countless trials and battles. However, Sasuke, unable to give up his quest for vengeance, leaves Konohagakure to seek Orochimaru and his power…

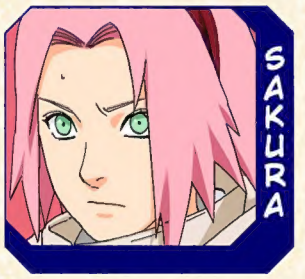

Two years pass. Naruto grows up and engages in fierce battles against the Tailed Beast-targeting Akatsuki. Elsewhere, after winning the heroic battle against Itachi and learning his older brother's true intentions, Sasuke allies with the Akatsuki and sets out to destroy Konoha.

The Fourth Great Ninja War against the Akatsuki begins. Having stopped the Edotensei jutsu with the help of his brother, Sasuke now heads off with Orochimaru to fullfil a new objective. Meanwhile, the man trying to revive Ten Tails is revealed as Kakashi's old teammate, Uchiha Obito. Now Naruto and Kakashi go up against the man who wants to end the world as we know it!
